Ercom announces Groupe Imprimerie Nationale has selected its Cryptobox solution

Vélizy-Villacoublay, January 19, 2017 - Ercom, a reference solution provider for secure voice and data communications, announces it has been selected by Groupe Imprimerie Nationale (French state printer).

The agreement includes supplying and deploying Cryptobox, the most secure groupware solution launched during the summer of 2016.

As a trusted operator, Groupe Imprimerie Nationale delivers e-Administration turnkey platforms providing enhanced digital public services to ensure reliable user identification and secure management of sensitive data. Groupe Imprimerie Nationale is a secure solution integrator for its clients and internal platforms, retaining solutions combining simplicity and high levels of security.

Ercom was chosen through a selection process, as Groupe Imprimerie Nationale was looking for a secure data exchange solution to share confidential documents with its partners and clients, in a simple, focused and extremely secure manner.

"*Ercom Cryptobox perfectly meets our requirements, with strong data security between user devices and our datacenters. Data is encrypted from end to end, which greatly reduces the risks associated with loss or theft. The solution is also extremely easy to deploy and use, on all types of devices, smartphones, tablets and computers,*" explains **Bruno Chappert, Executive Vice President of e-Services and Systems, Groupe Imprimerie Nationale**.

"*We are pleased to support Groupe Imprimerie Nationale with securing information exchanged with clients and partners. This agreement confirms the relevance of the vision and the products we are developing to secure corporate data exchanges using end to end encryption technologies, and address the growing challenges of protecting corporate data,*" declares **Yannick Dupuch, CEO, Ercom**.
